ABOUT ME

I am a passionate and motivated Web Developer & Designer with a strong interest in building clean, functional, and visually appealing digital experiences. I have learned multiple front-end and back-end technologies and have created several self-driven projects that helped me strengthen my practical skills.

I enjoy turning ideas into responsive, user-friendly websites and continuously improving my knowledge of modern web tools, frameworks, and design principles.

PROJECTS

[GITHUB](#) / [PORTFOLIO](#)

Daily Chores & Security Portal

Marketplace for Daily Chores and Security Services

- Connects individuals needing full-time workers with companies providing these services.
- Facilitates easy hiring, payment, and management of daily chores services.

School Management System

Designed a school management system to oversee all school activities, ensuring seamless management

- Salary & Fee management
- Attendance management:
- Class management
- Teacher and student administration

World Wide Land

Created user-friendly interfaces for browsing property listings

- Implemented features for users to request information, schedule viewings, and submit offers directly.
- Enabled property owners to list their properties for sale with detailed specifications and photos.
